Orchid Project modtager 50.000 kroner fra Mary Fonden

Orchid Project, med stifteren Julia Lalla-Maharajh i spidsen, har netop modtaget 50.000 kroner fra Mary Fonden.

Orchid Projects vision er en verden uden omskæring af piger. Den engelske organisation arbejder derfor for at bryde tabuet og højne vidensniveauet omkring omskæring ved at samarbejde med organisationer verden over. Målet er, at man i 2025 har opnået en signifikant nedgang i antallet af omskæringer.

Med bidraget ønsker Mary Fonden at støtte Orchid Project i deres arbejde for at skabe opmærksomhed og tiltrække flere ressourcer til omskærings-problematikken.

Støtten til Orchid Project er en del af Mary Fondens årlige donation til støtte til særlige projekter eller organisationer.

Orchid Project receives 50.000 Danish kroner from The Mary Foundation

Orchid Project, founded by Julia Lalla-Maharajh, has just received 50.000 Danish kroner from The Mary Foundation.

Orchid Project has a vision of a world free from female genital cutting, and aspires to make a significant impact on the reduction on female genital cutting (FGC) by 2025. Orchid Project does this by working with other organisations which are delivering an end to FGC at the grassroots, communicating the hope for an end to FGC to the wider world and undertaking advocacy at the highest level to bring increased resource to the issue.

With this donation The Mary Foundation wishes to support Orchid Project's work to raise awareness, advocate for more resources globally and ensure action.

This grant to Orchid Project is a part of The Mary Foundation's yearly donation to selected projects or organisations.
